

# Instaliranje i aktiviranje ESET Endpointa - samostalna instalacija

## Tema

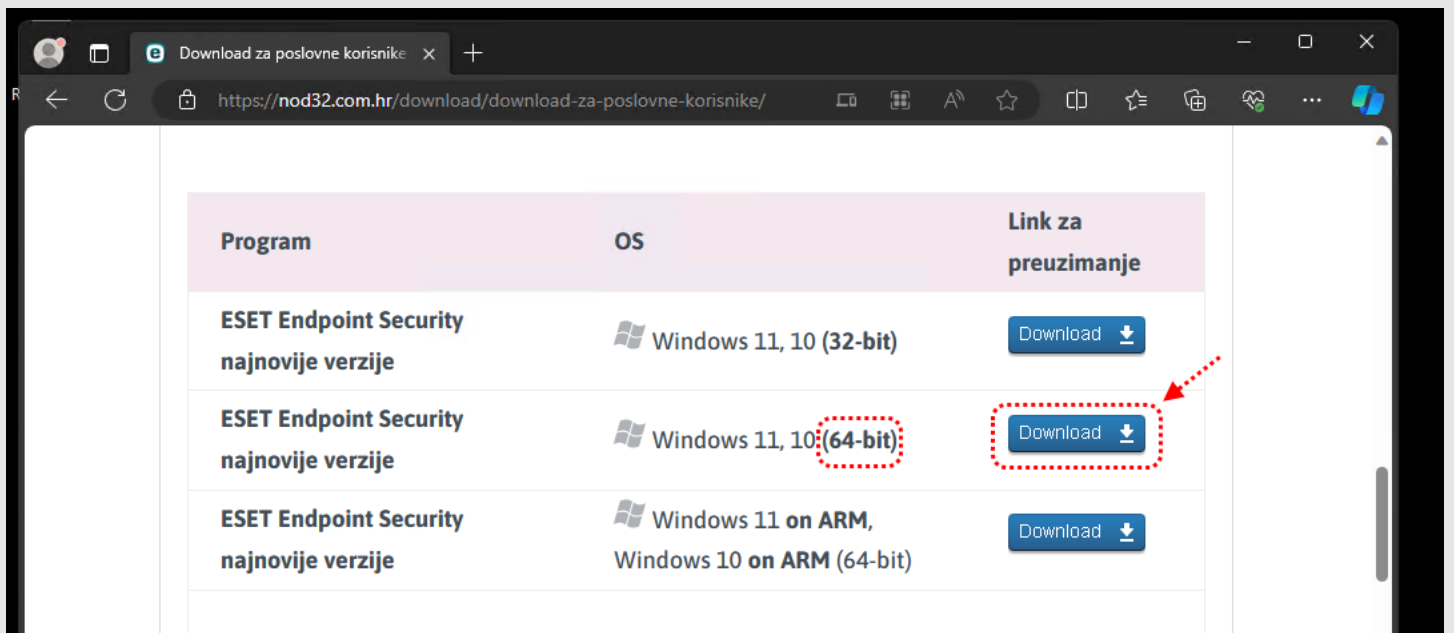

Lokalno instaliranje i aktiviranje poslovne kategorije programa:

- ESET Endpoint Antivirus (EEA)
- ESET Endpoint Security (EES)

## Postupak

[>] Otvorite stranicu za download <https://nod32.com.hr/download/download-za-poslovne-korisnike>

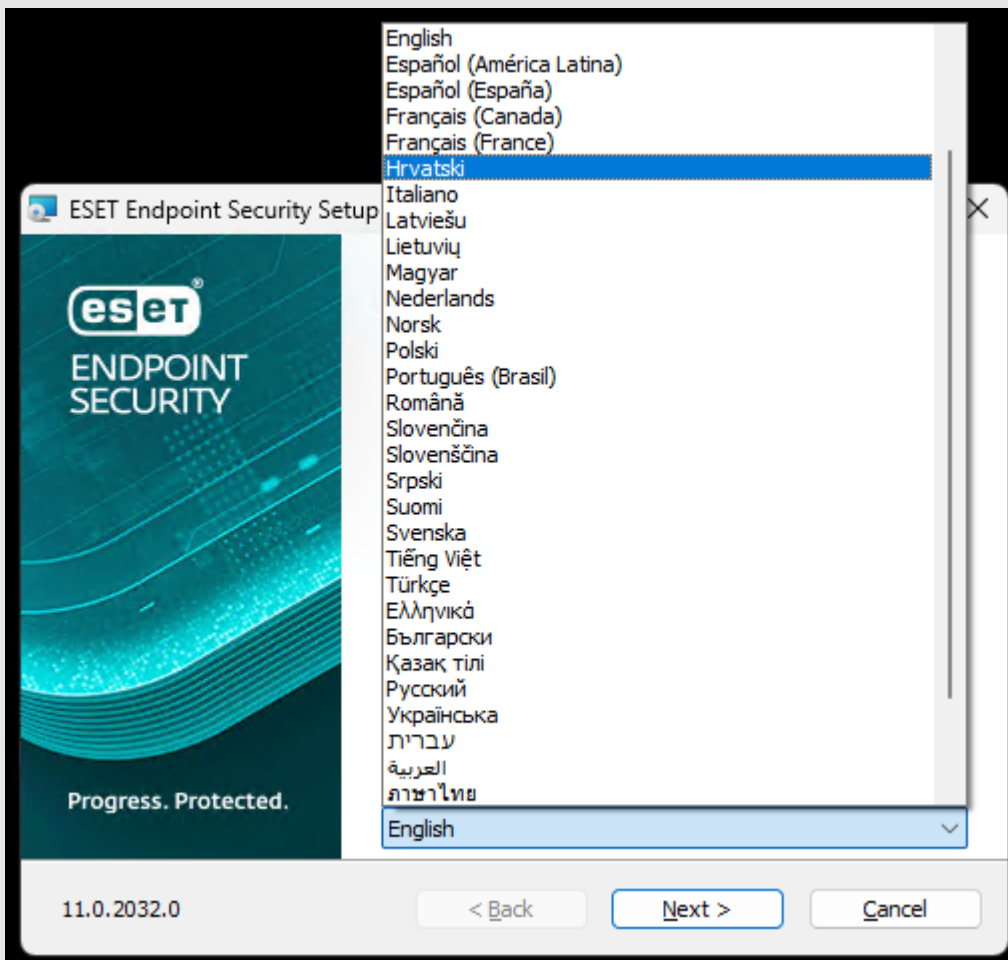

[>] Odaberite program koji odgovara licenci i verziju koja odgovara operacijskom sustavu (Je li OS 32- ili 64-bitni? <https://www.nod32.com.hr/podrska/kb10266>):

[>] Pokrenite instalaciju

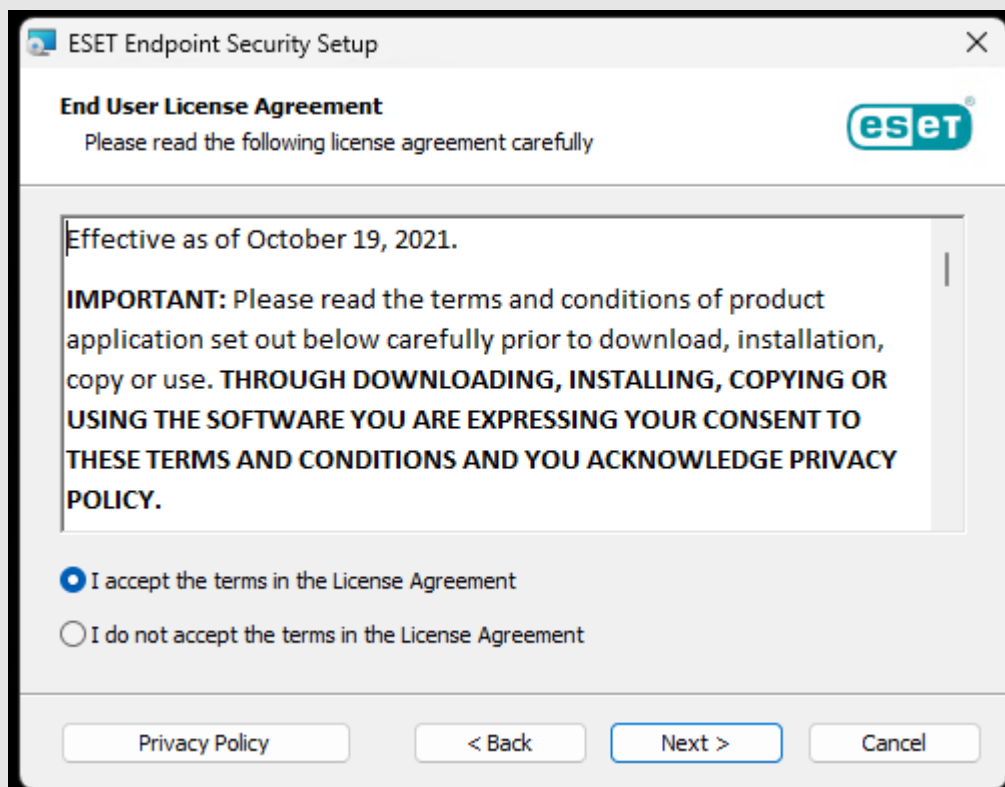

[>] Odaberite jezik:

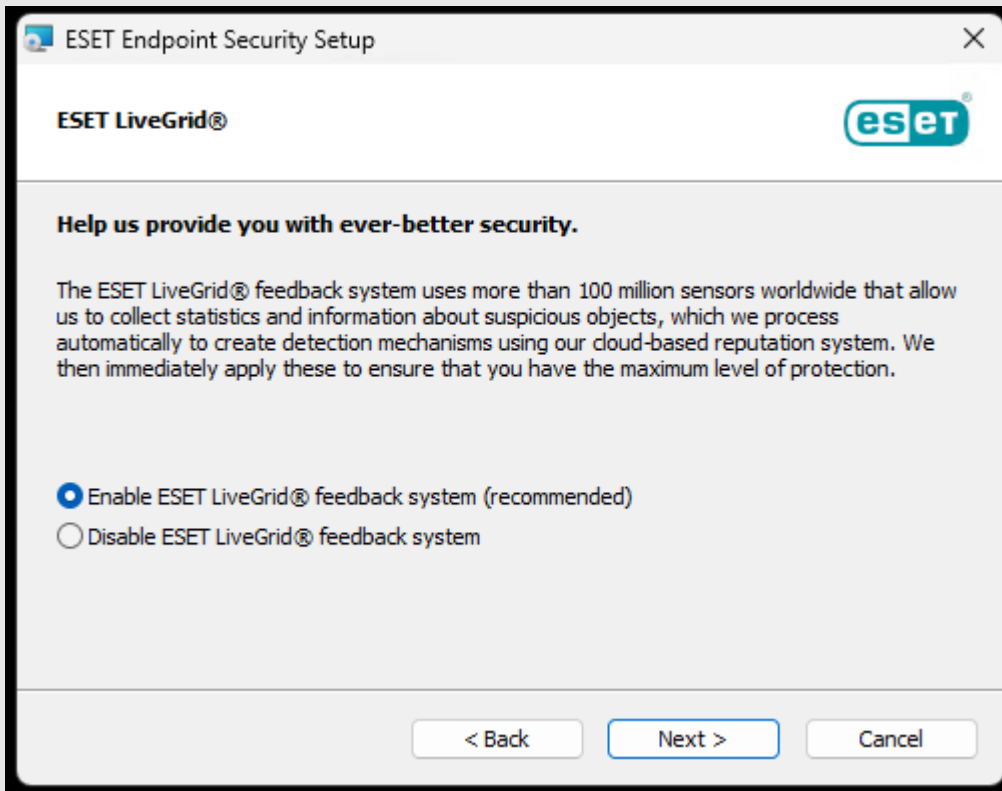

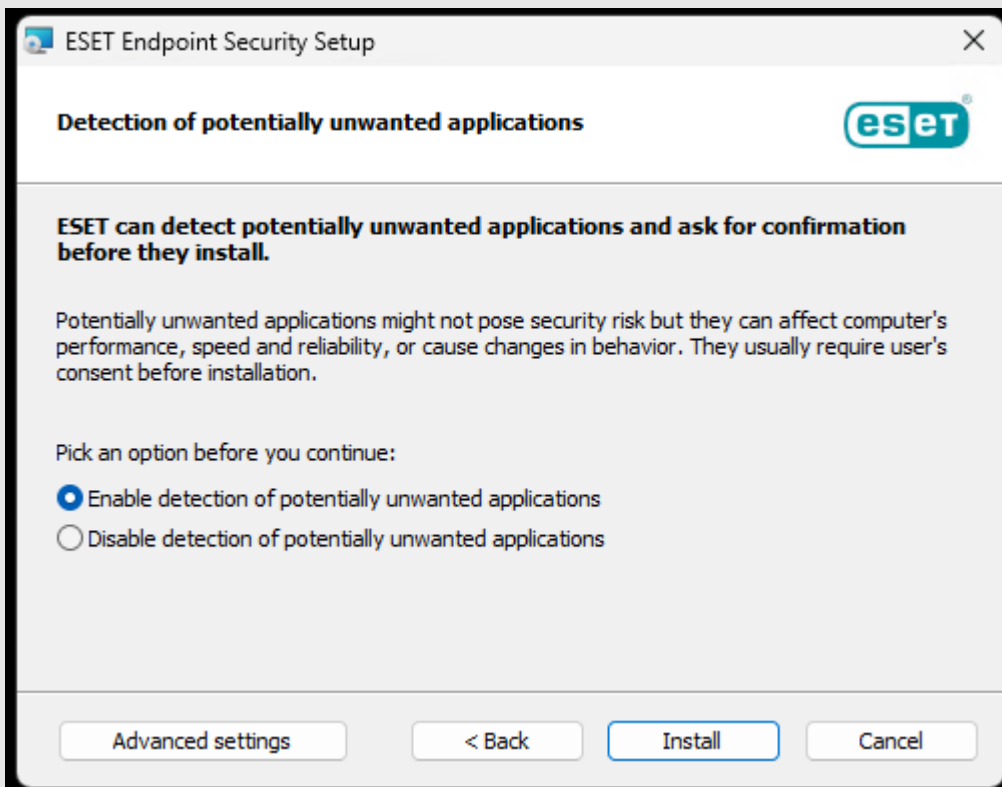

[>] Morate prihvatiti "License Agreement" ako želite koristiti program:

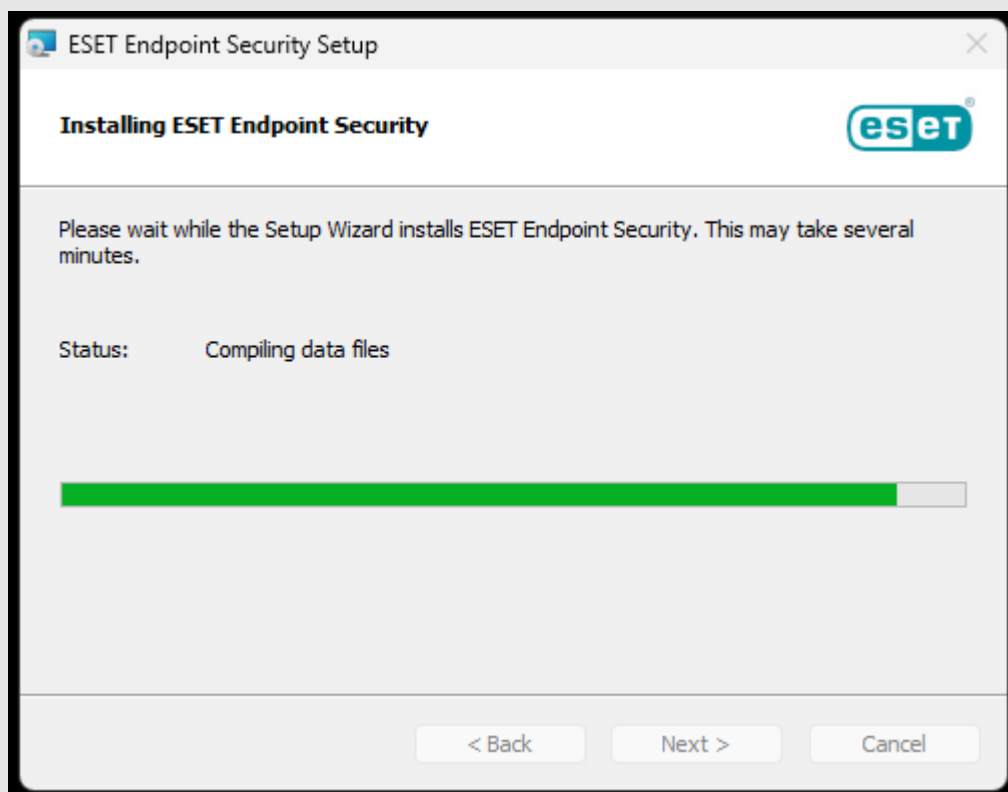

[>] Uključite opciju "ESET LiveGrid" ako već nije aktivna:

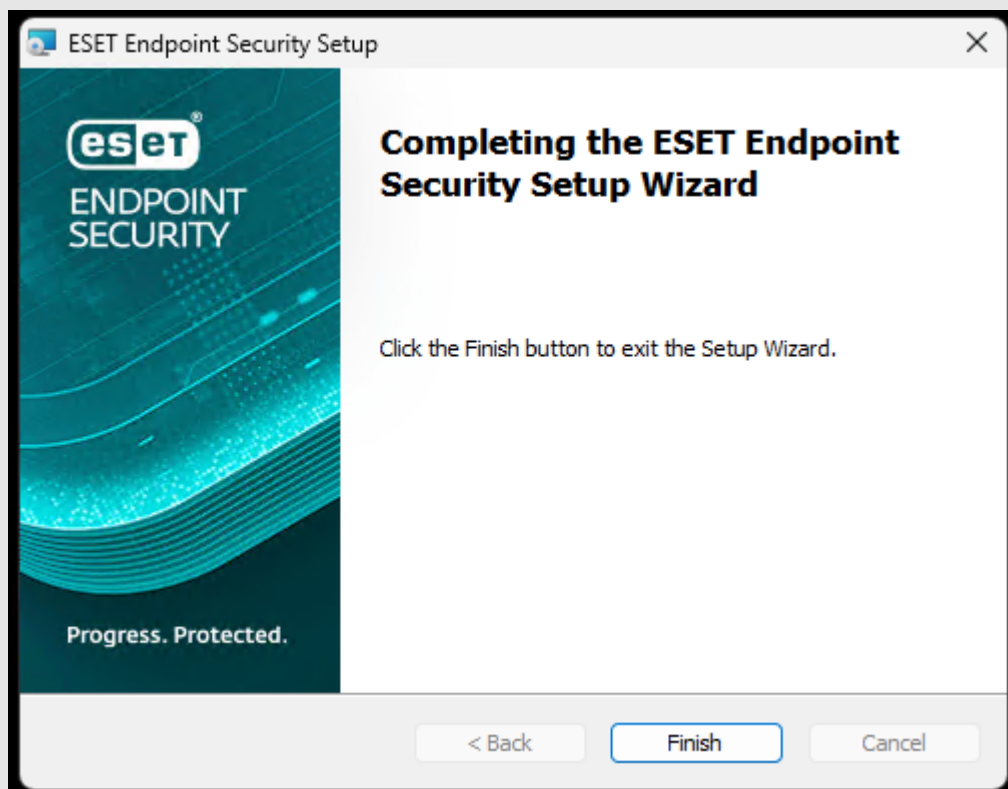

[>] Uključite "Enable detection of potentially unwanted applications"

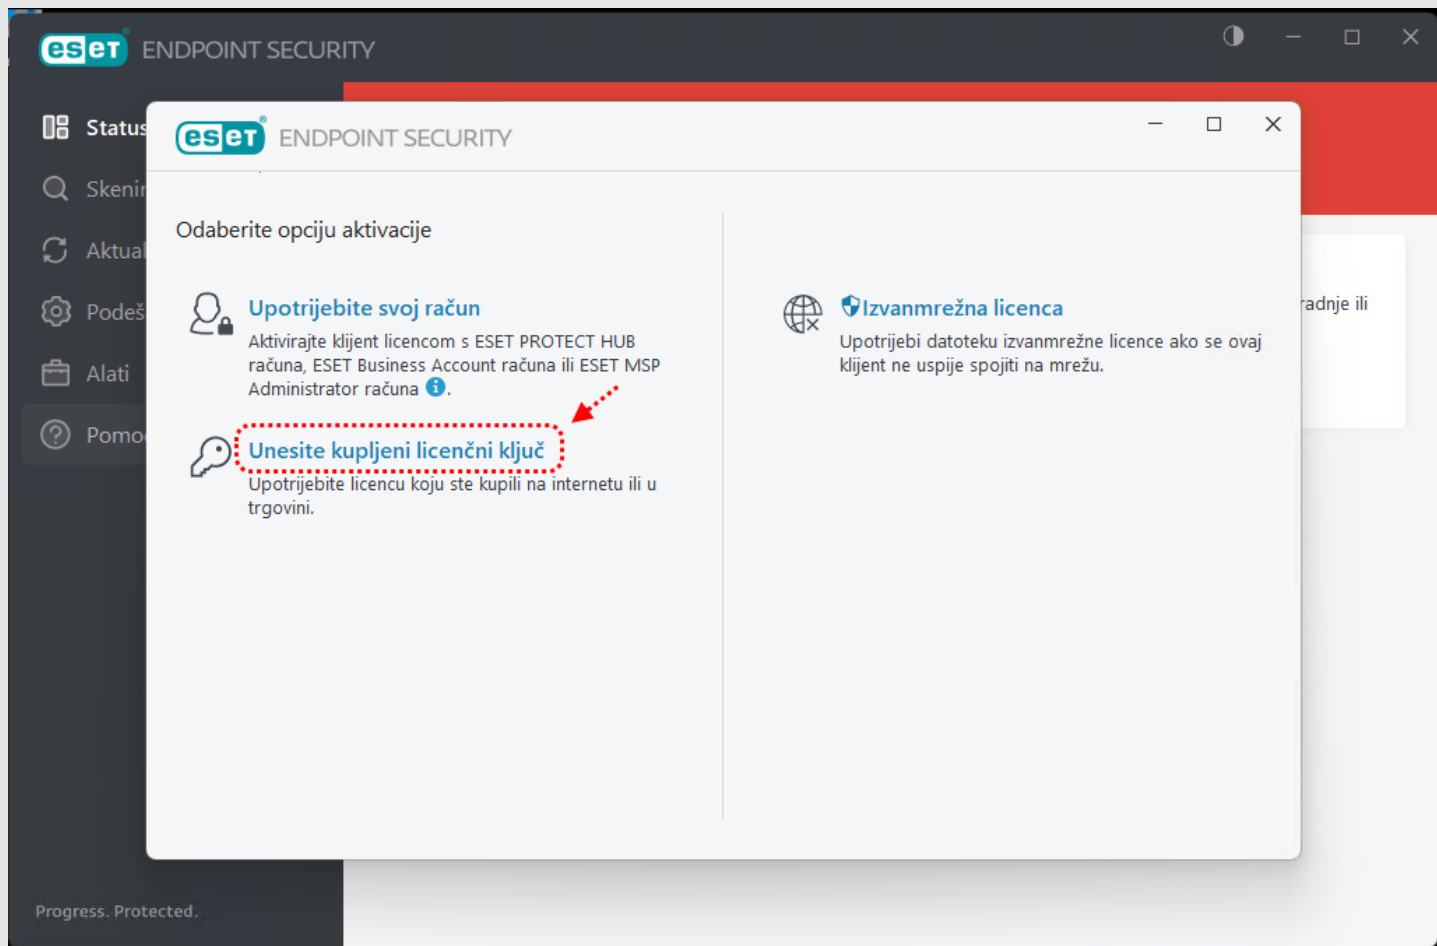

[>] Pričekajte malo...

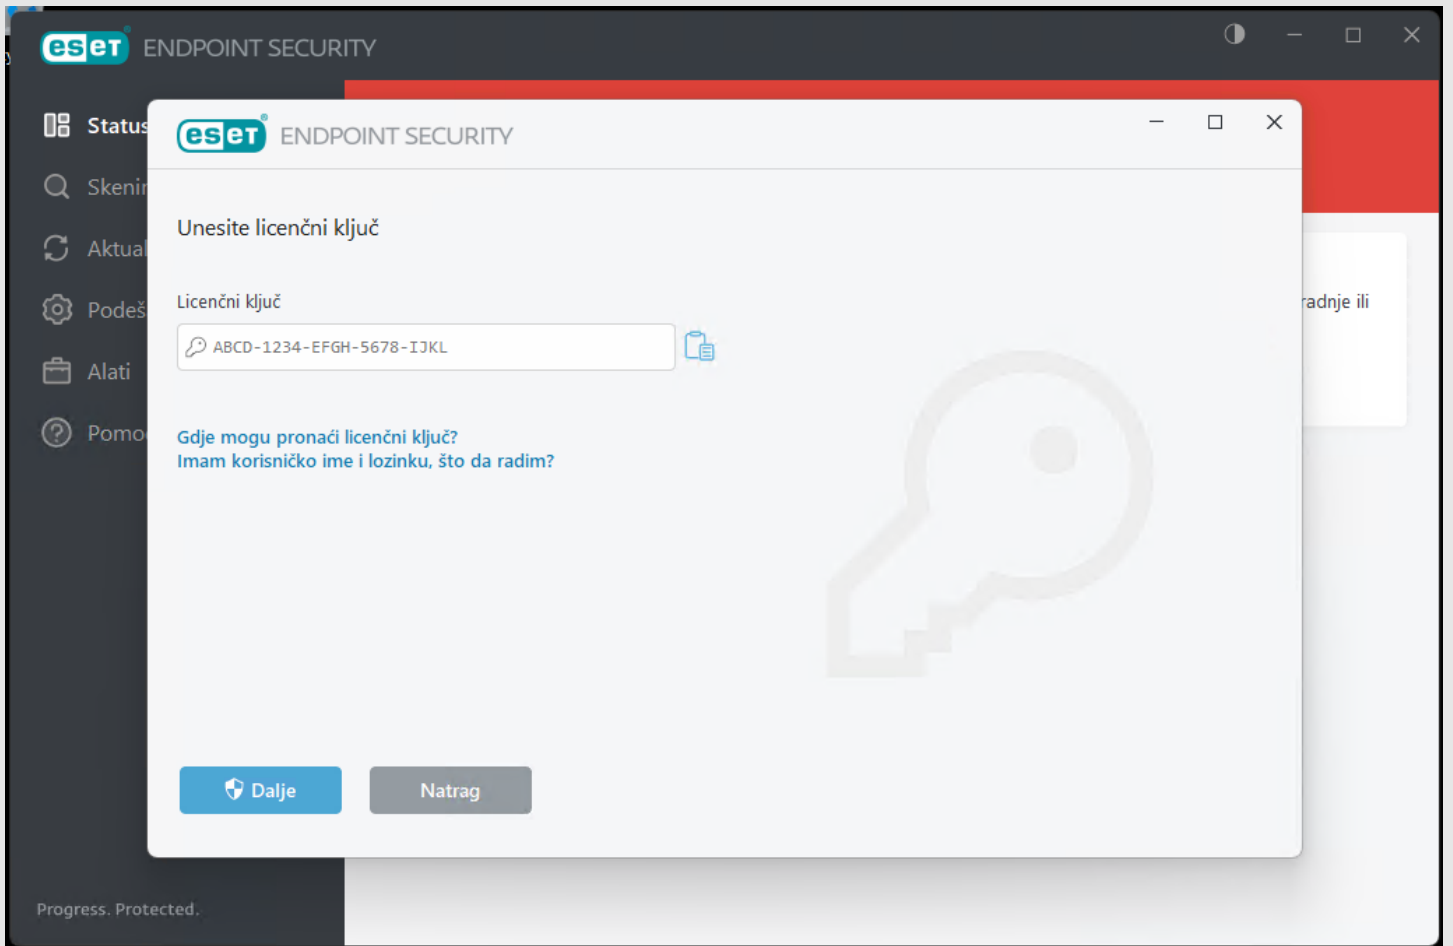

[>] Kliknite na [Finish]

[>] Kliknite na "Unesite kupljeni licenčni ključ":

[>] Upišite ključ

## Ako koristite ESET Protect (EPX) server/konzolu..

..upotrijebite task "Software install":

[https://help.eset.com/protect\\_admin/latest/hr-HR/?client\\_tasks\\_software\\_install.html](https://help.eset.com/protect_admin/latest/hr-HR/?client_tasks_software_install.html)
